A photodrama of exquisite Pathos—and bathos!
She was an irrepressable bouncier! she laughed and giggled at Love! But Cupid was not to be daunted. That little arch misehief monger clapped this Swect little imp of frivolity into gaol. The curious antiquarian town had prescribed in their penal code, that convicts, filling in their respective turns, were to be "hired out" at so many dollars per diem, to respectable townspeople. Well, the girl was let out to a handsome young author! With obvious results!

PIECE GOODS.

The Cloth market has remained quiet and very little business has passed through. The wholesale demand has not materialised, but as the monsoon has been favourable hopes are entertained for a good demand in the near future. The retail enquiry has also not been satisfactory and rupees rates of some cloths have declined. Some needy sellers have been anxious to dispose off their stocks at sacrifices, but generally the merchants have been adopting a waiting policy in anticipation of demand. The Khadi movement has been in full swing in upcountry districts, which has curtailed the demand for foreign cloths. It is interesting to note that the District Magistrate of Sind Hyderabad has prohibited the exhibition of a Cinema film showing bonfires of foreign cloths at Ahmedabad during the last Congress session.

Grey Shurtings and Drills have hardly shown any change owing to the absence of demand. Jaconets have remained steady. 39 inches by 20 yards Gold End Mulls have declined by four annas per piece. 27 inches by 18 yards Nainsooks "Nos. 61/81" have also shown a reduction of four annas per piece. White shirtings have been neglected.

The Manchester Cloth market has been firm and steady in sympathy with the position of the raw material and in view of the engagements of makers. At present buyers cannot place orders on their own terms, as heavy advances have been required. Merchants are hesitating to commit themselves to large contracts. Clearances have fallen off, chiefly owing to the inclement weather. Importing houses as well as the Banks have been generally bringing pressure to bear on the Mills regarding the clearance of old stocks. It will be remembered that the Master Printers' Association had previously advocated the expansion of their works [illegible] but as a result of the report of the Indian Investigator, who was sent to India, the Directors have now decided that any expansion shall take place in Lancashire. Members of the Oldham Master Cotton Spinners' Association are suggesting an immediate curtailment of production, but the Union is not likely to agree to this as operatives are in a position to work full time on short orders.

CHEMICALS-MARKET.

July 28.

The demand for heavy chemicals in general is steady without any rise or improvement in prices. The prices from Hamburg kept falling for sizing chemicals. Arrivals of dyeing and Sizing chemicals have been sufficiently large and great lots are awaiting sales here. Epsom salt has been reduced in prices and is quoted at Rs. 6 per cwt. and less. Magnesium chloride has witnessed a sudden fall and is now quoted at Rs. 5-8-0 per cwt. in view of large lots having accumulated in the markets. Brown sugar lead, Sodium Sulphide, Yellow prussiate potash and Bichromate soda kept silent without enquiry. Mofussil inquiry has also sagged and the quotations are regularly falling.

Farina which had been scarce for a considerable time has been rather dull now without activity. The quotations are Rs. 29 for Dutch quality. Japanese is not available. Bleaching powder is another commodity which has been all of a sudden scarce and the nominal rate is Rs. 30. Acetic acid and Oxalic acid have no further fluctuations. Caustic soda is unaltered.

The quotations are as under:—

Sodium Sulphade, Rs. 24; Hydrosulphide of Soda, Rs. 1-12; Brown Sugar Lead, Rs. 33; Bichronate Soda, Rs. 48; Bichronate Potash, Rs. 60; Oxadic Acid, Rs. 60; Acetic Acid, As. 9-6; Tannic Acid, Rs. 2-6; Litharge, Rs. 40; Magnasium Chloride, Rs. 5-8; Zinc Chloride, Rs. 22.

MILL-STORES.

July 28.

Mill-stores market is nervous, and in absence of any lively demand the rates in most of the important articles are less than the actual cost. Healds meet with fair demand but large stocks and weak-holders spoil the market. Reeds are steady and retail business passes at Rs. 5 per 100 dents. Woollen-goods have no demand. Picking-band is firm and stocks being limited its rates have advanced, by annas four per lb. Cotton-banding is changing hands at Rs. 1-3 per lb. Lambeth-cotton has fair demand in special sizes. Bobbins have poor demand. Sundries change hands at the ruling rates. The quotations are as under:—Healds Rs. 2-4 per 800 eyes; Reeds Rs. 0-5 per 100 dents; Cotton-Bandings Rs. 1-3 per lb.; Lambeth-cotton Rs. 1-15 per lb.; Picking-Band Rs. 2-6 per lb.; Card-cans 36 inches by 9 inches Rs. 5 per each; Elastic-Healds Rs. 27 per 1,000; Waft Rs. 30 per grose; Sizing-Flannel R. Rs. 4-8 to 5-8 per lb.

COLOUR-MARKET.

July 28.

No significant fluctuations are to be reported. The rates are easy and keen competition is found among the agents of the different manufacturers. Important fall in Alizarine 20 per cent. is to be reported. Last week it was quoted at Rs. 95 per cwt., but this week it is quoted at Rs. 82 per cwt. In sympathy with 20 per cent.; 16 per cent.; Alizarine is quoted at Rs. 65 per cwt. Good inquiries are for Congo-red and Sukpher-Black in the market, but owing to heavy stocks no animation is found. Miscellaneous section is quiet. The quotations are as under:—

Alizarine, 20 per cent. Rs. 85 per cwt.
Alizarine, I. P. Rs. 350 per cwt.
Alizarine, 16 per cent. Rs. 65 per cwt.
Congo-red, Rs. 2 per lb.
Benzo-purpurine, 4B Rs. 3-2 per lb.
Delta-purpurine 5B Rs. 4-8 per lb.
Magneta-crystals Z Rs. 11 per lb.
Magnet-crystals B Rs. 8 per lb.
Madras fast red Rs. 6-7 per lb.
Malachite-green Rs. 8 per lb.
Sulphur-black Rs. 1-12 per lb.
Indanthrene-Pink B (Badische) Rs. 10-6.
Indanthrene-Violent R. R. Extra Rs. 6-4.
Indanthene Black B. B. Rs. 4-5.

YARN MARKET.

July 28.

The same quiet tone as reported last week has continued to rule in our market throughout the whole week and prices have experienced a further reduction of about ¼ anna per lb. all round. American and Liverpool Advices for Raw Cotton are weak and these in turn have effected the local cotton market which has remained easy. As a result, the dealers lose confidence in the present prices. As usual in the declining state of the market, demand has been absent and buyers prefer to wait in expectation of lower rates.

English and Japanese yarns are moving slowly and due to slack demand prices have reduced to some extent. Inquiries for double yarns have also lessened and although the stock in 2/30s. 2/40s., 2/60s. and 2/80s. is not much, prices have gone down owing to spot clearances being small. Manchester and Japan markets are slightly easy but fresh forward business is not possible as the replacing costs are still heavier.

Indian Mill Yarns have remained dull and weak holders are offering at reduced rate especially because the consuming centres are buying very sparingly and clearances are not satisfactory. Calcutta, Madras and Rangoon markets are reported quiet. There has been continued absence of demand from Shanghai and as reported some stocks are lying there still uncleared. Hongkong has bought a few bales but the coolie strike has probably come in her way. Some local mills are reported to have sold a few bales to the bazar at reduced rates and others seem inclined to do so but find no buyer at the present rates.

The future course of the market is too uncertain to be forecasted and we shall not be surprised if the prices are still reduced a little further, when we believe demand will spring up and market will again be steady.

FOREIGN MARKETS

During the week under review Foreign markets displayed a continuance of downward tendency both in Liverpool and New York. The recent depression in the American markets was due partially to reports of slightly improvement in weather, and also mainly to dull trade conditions. From the reports recently received from Liverpool it seems that the unfavourable trade outlook may cause a further decline in the immediate future, and that for the present it is advisable to sell in strong markets. But at the same time they show that there is still possibility of bad weather which may change the present tone of the market. We are of opinion that the present weakness will prove temporary, and that prices both in America and here will go higher in the long run.

Owing to decline in America and heavy selling by Bear Operators prices here also declined. Sales of ready cotton also have fallen off considerably during the week. Yesterday's cable from Liverpool states that the crop accounts in Texas are somewhat unfavourable, commencing to cause damage to the crop.

The following were the changes in the Home markets as compared with last week:—

Liverpool October	12.69	—	12.17—52
Liverpool January	12.40	...	11.91—49
Liverpool March	12.	...	11.82 -48
New York October	22.38	...	21.26—112
New York January	22.14	...	21.07—107
New York March	22.10	...	21.05—105

HARWOOD FOOTBALL TOURNAMENT.

R. G. A. (3) BEAT Y. M. C. A. (0).

One more interesting match in the course of the Harwood League Football Tournament was played off yesterday on the Cooperage ground. The participants in the day's match were the Royal Garrison Artillery and Y. M. C. A. teams. The match on the whole though not marked with any exceptional degree of interest, was yet a pretty one to witness. Both the teams gave a good display of football tactics, but the honours of the day undoubtedly rested with the Gunners, who were able to secure a bag of three goals without evoking a single response from the part of their adversaries. This, of course, reflects no credit to the men of the Red Triangle. On their previous record no one would have anticipated such a signal defeat for them. The licking that the Y. M. C. A. got in a large measure to be attributed to the extremely feeble defence put up by their defence line.

Play began punctually at 5-45 p.m. There were slight drizzles of rain towards the beginning and at the close of the game, but the play was not in any way appreciably interfered with the attendance was fairly big. The Y. M. C. A. attacked in fine style, but operations were soon transferred by the nimble R. G. A. forwards. The balance of Exchanges was fairly even, but luck favoured the R. G. A. and within a few minutes of the start they scored the first goal, Morgan being responsible for the lucky shot. This acted as a damper on the Y. M. C. A. and robbed them of all initiative. They, however, stuck to a good defensive game and were successful in warding of all attacks.

During the second half the R. G. A. showed considerably improved form and their forwards monopolised attacking operations. The Y. M. C. A. defence also slackened in attention and as a result the R. G. A. increased their lead by two more goals. Bond and Gray respectively were responsible for these goals. It was an easy win for the R. G. A. during the second moiety. The two goals which they secured were both of them off pretty long shots and could very well have been saved by a more wide-awake defence. The score at the end was:—

R. G. A. ... ... 3 goals.
Y. M. C. A. ... ... *Nil.*

The teams were:—

R. G. A.:—Goal, Rankine; Backs, Kennett and Tyler; Halves, Grant, Bond and Flynn; Forwards, Fagan, Saxon, Reaney, Morgan and Barker.

Y. M. C. A.—Goal, Rees; Backs, Constable and Dare; Halves, Rodgers V. Kelly and C. Kelly; Forwards, Niblett, Hogan, Abbott, Martin and Park.

Referee:—Mr. Inwood.

At the Esplanade Police Court before Mr. G. R. Khairaz, Acting Third Presidency Magistrate, Sub-Inspector Achreker of C. I. D. applied for discharge of Yousoof Saheb Khan and 80 other Pathans, forming a gang of dacoits of 157 Pathans, who were placed before the Acting Chief Presidency Magistrate on Thursday last on the ground that they were employed in P. and O. His Worship ordered the accused to be discharged.

INDIAN CO-OPERATIVE NAVIGATION AND TRADING COMPANY.

TO THE EDITOR OF "THE CHRONICLE."

Sir,—It is brought to my notice that the management of the above Company have issued printed proxy forms and have been collecting proxies in the name of one or the other of the signatories to the Directors' Report accompanying the audited accounts and Balance-sheet for the year ended 31st May 1921.

It is a departure from the procedure laid down by the Board last year, inasmuch as it was decided to issue proxy forms along with the Directors' Report and to post one form to every share-holder with a request to return it to the Secretary duly filled in. It will be agreed that this is the proper way to ascertain the wishes of the absent share-holders and the Board had come to that conclusion after duly taking into consideration the experience of the past.

Whether proxies appointed by persons without knowing the purpose for which they are to be used are valid instruments or not is a matter, now to be decided by the meeting itself and that point will be duly raised.

In the meanwhile, friends have advised that it is my duty to advocate the policy which I believe to be in the interest of the Company and print and send proxy forms to share-holders. Before this is done, I should like to lay down my programme and invite suggestions from share-holders who are taking keen interest in the affairs of this Company. As one cannot go beyond matters not mentioned in the notice convening the meeting he has to be satisfied with the following programme only. Namely:—

(1) To elect an independent Chairman.
(2) To receive Directors' Report, my separate report audited accounts and Balance sheet for the year ended 31st May, 1921, and to pass resolutions in approval thereof.
(3) To elect a Director in place of Dr. A. G. Viegas.
(4) To strengthen the Board, if thought proper by electing Mr. Madhavji Virji (Senior member of the firm of Company's Solicitors) and Lieu.-Col. V. N. Bhajekar (One of the promoters and 1st Director of this Company) to be Directors.
(5) To appoint auditors and fix their remunerations.

and (6) To prescribe regulations if thought necessary for conducting the Company's business, as contemplated in Article 97 of the Articles of Association.—Yours, etc.

"A PENSION AND ITS MORAL."

TO THE EDITOR OF "THE CHRONICLE."

Sir,—Under the above heading you wrote a leader in the "Chronicle" of the 27th instant with many of the statements of which I am in complete accord. I should like to point out, however, that you seem to have overlooked one point. You state that "there is apparently one law for Europeans and servile Indians and another for Indians with self-respect." Will you please reconsider this and accept that there are three laws, one for the European, one for the servile Indian, and the third for th Indian with self-respect?—Yours, etc.,

PROMOTE INTER-PROVINCIAL INTERCOURSE.

TO THE EDITOR OF "THE CHRONICLE."

Sir,—There are many good things about the other Provinces of India, of which we know so little! We are still so very provincial even to-day! Let us take Bombay for instance. Compared to its general activities, its attention to the history, the culture and the achievements of other Provinces is painfully meagre. We have men from all provinces in this city. They form their own unions and associations. Their meetings and functions are generally private at least they are not always open to the public. Thus their activities are in a way isolated. They do not create much interest among the Bombayites. Both are losers thereby. This case is generally applicable to all other provinces. Would it not be better, just for a start, to ceebrate every year a Bengal Day, a Punjab Day, a Maharatha Day, a U. P. Day a Bihar Day, an Andhra Day, a Sindh Day, a Karnatic Day, a Gujarat Day etc., all over India, when the life and work of some of the great Leaders, and the culture and the progress of that Province may be brought into full relief? Will this not lead to a better understanding and a greater appreciation of the work and worth of each Province? Will it not promote finer feelings between the people of various provinces? The Day may be fixed on the respective New Year. Day as observed in that Province. The Parsi Rajkeya Sabha intends to make a start in that direction, and will welcome all suggestions and assistance in regard to the celebration of the respective Days.—Yours, etc.

BARJORJI FRAMJI BHARUCHA.

WHO CAN SOLVE TRAMWAY PROBLEM?

TO THE EDITOR OF "THE CHRONICLE."

Sir,—In consideration of the very useful services which Shri Laxmidas Tairsee rendered during the last tramway strike in the middle of November 1920, I am sure the present General Manager of the Company will be pleased to grant an interview to Shri Laxmidas Tairsee, to enable him to find out means and ways for solving the problems of the employees, of the Company and of the public, by preventing the "strike and striving to promote the welfare of the Traffic Employees.—Yours, etc.

PARSIS AND PERSIA.

DR. MINOCHER DADY INTERVIEWED

Dr. Minocher Dady who recently arrived in Bombay on the completion of his tour to Persia granted the following interview yesterday morning to a representative of the "Bombay Chronicle" about "Parsis and Persia":—

Representative:—Can you cite your experiences of your recent visit to Persia?

Dr. Dady:—Yes, very willingly. I was in Persia for eight months. I experienced no difficulty whatever during my tour. When I was in India last year, (I heard certain reports of looting and the roads being unsafe for travellers in Persia. These reports are quite false. I heard nothing about any caravan being looted anywhere in Persia. Another thing was that I wanted to ascertain the feelings of Mahomedan Persians towards the Zoroastrians, because we in Bombay knew that the latter were being ill-treated by the former. In all the Persian cities like Shiraz, Ispahan, Teheran and Kerman, which I visited, I found that the Mahomedans treated their Zoroastrian brethren very well, respected them and loved them. There is, however, one city, Yezd, where there are certain civil disabilities. For example, a Zoroastrian is not allowed to ride an animal through a bazaar. He is required to put on a special kind of dress. But these are minor points and in reality they are due to the fault of Zoroastrians themselves. These defects, to my mind, could be remedied in no time. If Zoroastrians have a powerful leader or on able adviser in Yezd, to guide them in the matter, their difficulties will be soon obviated. The Zoroastrians did change the dress of their children two years ago. For the time-being, the Mahomedans boycotted the Zoroastrians and did not have any dealings with them. But without any loss of life or catastrophe, the difficulties of the Zoroastrians passed off very smoothly. Yezd is situated in such a remote part of Persia that the people of Ispahan and Shiraz never think of going there. But the few Mahomedans of Ispahan and Shiraz who happen to go to Yezd on business feel ashamed of the ill-treatment of their Zoroastrian brethren. In my opinion, the Zoroastrians are highly respected and honoured in every important city of Persia except Yezd. In short, they are treated by Mahomedans upon terms of equality. The Persian Government also treats all Mahomedans, Zoroastrians, Armenians and Jews alike. In my humble opinion, the Zoroastrians, except in Yezd, are quite contented and happy. So, it is not true to say that the Zoroastrians are being badly treated by Mahomedans in Persia.

Another thing I wanted to find out was whether Parsis would be successful in establishing their business connections with Mahomedans in Persia. I am of opinion that Mahomedans will welcome their Zoroastrian brethren in Persia. I have succeeded in getting at the truth of all the doubt expressed by some persons in India.

STATUS OF ZOROASTRIANS.

Representative:—What is the social status of Zoroastrians in Yezd?

Dr. Dady:—Zoroastrians in Yezd are well treated on social occasions. A Mahomedan Syed would treat a Zoroastrian in a friendly manner, he would offer him a cup of tea (as is the custom everywhere in Persia) and do all he could to please him.

Representative:—What must be the population of Parsis in Persia?

Dr. Dady:—The Zoroastrian population in the whole of Persia is about 12,000, of whom 8,000 are in Yezd, 2,000 in Kerman, 800 in Teheran and other surrounding villages. The condition of Zoroastrians in Teheran is the best. The Zoroastrians in Teheran are highly educated and are on the same level with their Mahomedan brethren.

Representative:—Is it a fact that the Parsis in Yezd and Kerman are rotting in poverty?

Dr. Dady:—It is not a fact that the Zoroastrians as stated by Dr. Dastur Dhalla in his recent lecture, are rotting in poverty in Yezd and Kerman. The majority of them are agrioulturists. I do not understand on what authority Dr. Dhalla made that sweeping statement. I dare say that he has not visited Kerman and Yezd where he ought to have gone, because in these two places live the great majority of Zoroastrians.

Representative:—Do you think it is advisable for Parsis to migrate to Persia at present? If so, what course would you suggest to them with regard to their migration?

Dr. Dady:—I would not suggest the migration of Parsis from India to Persia *in large numbers*, because it is an impossibility. I have never spoken of the migration of Parsis to Persia *in large numbers* in my previous articles. I am of opinion that we should make a beginning by taking a few Parsi capitalists, of course on a small scale, to Persia, so that they could employ a certain number of Parsis in their own firms. At present, there is a large field for any capitalist or anybody commanding a small capital in Persia.

Representative:—Are there any Zoroastrian members of the Persian Parliament?

Dr. Dady:—Yes. There is one representative of Zoroastrians in the Persian Parliament at Teheran. His name is Arab Kekhosru Shahrukh. Everybody in Persia is of opinion that he is the best and purest Persian in the whole of Persia. The most important State-documents are entrusted to him. Every Province selects its own number of representatives to be sent to the Persian Parliament. It is not correct to say, as Dr. Dhalla has said, that a man representing a Particular place in Parliament has not seen it in his life-time. I may say that Dr. Dhalla's tour from Karachi to Persia and back lasted for only two months and a half. He was 12 days in Shiraz, where there are only 35 Zoroastrians, 2 days in Ispahan where there 5 Zoroastrians and 4 days at Teheran where there 800 Zoroastrians. I doubt whether Dr. Dhalla came across a hundred Zoroastrians in Teheran during his sojourn there.

Representative:—Is Dr. Dhalla right when he says that most of the Zoroastrians are, at present, following the Bahai religion?

Dr. Dady:—There are some Zoroastrians who have resorted to the Bahai religion, but in reality they do not understand the A. B. C. of Bahaism or Zoroastrianism. It is all due to their having no education. Besides, the number of Zoroastrians following the Bahai religion is not very large, as has been stated by Dr. Dhalla. False reports like those of Dr. Dhalla and Mr. Ardeshir Reporter are doing great injustice to the Persian Government, Persian Mahomedans, Persian Zoroastrians and even to the Parsis of India, in the sense that any enterprising Parsi desiring to go to Persia for business purposes will certainly be afraid of going to Persia on account of all sorts of wrong information supplied to him.

THE LATE MR. B. K. GHOSE.

DEATH UNDER TRAGIC CIRCUMSTANCES.

We regret to announce the death of Mr. Barendra Krishna Ghose, senior partner of Messrs. Wyndham Lloyd and Co., of Bombay, who was formerly connected with Messrs. John Dickinson and Co., of this city. Mr. Ghose was on his way to Calcutta, when he met with his death at Sutna station, under tragic circumstances, as the result of a railway accident. Mr. Ghose was largely interested in paper business and also was a founder of the Ramkrishna Weaving Mill at Ahmedabad. His death is mourned by a large number of friends and relatives. The office of the Indian Commercial Bureau, paper merchants of Princess St., was closed yesterday on account of rM. Ghose's death.

HOUSE BREAKING AND ROBBERY AT BANDRA.

On Tuesday night the house of a Mogul gentleman residing at Palli at the foot of the Palli Hill was broken open and property of the aggregate value of Rs. 2,000 was taken away. The robbery does not seem to have been a clever piece of work or one requiring any extraordinary bravado either, for on the ground floor there is a suite of rooms each with a barred window opening into the compound and only a few feet above the ground. It does not seem to have required much carpentry skill to remove the bars of the window and enter the room where there was not a single inmate of the house. Moreover any noise made by the robbers must have been easily drowned by the heavy rain that fell and the roaring wind that blew on the night of the robbery.

BURGLARIES IN THE CITY.

NEARLY RS. 30,000 STOLEN.

The cases of burglaries, in which thieves have succeeded in carrying away property worth several thousands of rupees, have been reported to the Police. These burglaries have been committed in the "B" Division. From enquiries made, it appears that a shroff named Kasturchand Oonkerji, lives on the second floor of Hukimchand Building on the Bhuleshwar Road. At 11-30 p.m. on the 17th instant his *monim* and his barber Kanayalal locked the door of the room on the second floor and went to sleep on the fourth floor as usual. The key remained in charge of the barber who has been in Kasturchand's service for the last twenty years. At 4 a.m. Kasturchand's cook heard some noise in the room on the 2nd floor and informed him. Kasturchand asked the *monim* and the barber to go and see what the matttr was, and he himself followed them. After the lock was opened it was found that all the articles were lying scattered about, the window, facing the sweeper's lane broken open a cupboard forced open and jewellery and cash collectively valued at Rs. 25,335 stolen therefrom.

Another burglary, almost under similar circumstances, was committed in a house in Bhai Jivanji Lane, Thakurdwar. It appears that Ramnath Kashinath, the occupier of the house, went to bed at 10 p.m. on the 26th instant after chaining all the doors from inside. At 11 p.m. his wife noticed a Mahomedan gazing at her house from the verandah of the opposite house, but took no notice of it. At 2 a.m. she found the door at the back open and also heard some noise. She woke up her husband but he was too sleepy to take any notice of the incident and again fell asleep saying his son might have gone to the lavatory leaving the door open. At 6 a.m. when he got up he found that his box was broken open and ornaments valued at Rs. 12,696 stolen. The box was only about two feet from the complainant's bed and its hasp was found to have been wrenched off.

Unlike most serials, "The Blue Fox" continues to become more exciting and interesting as it goes along, and is the best photoplay of its kind ever produced in Bombay. The new European management of this house has secured some wonderful high-class American dramas, including "Broken Blossom", "Deadline at Eleven", "Back of the Man", "The Flaming Clue", "The Vampire", and "The Woman on the Index", with such stars as Pauline Frederick, Lillian Gish, Dorothy Dalton, Corinne Griffiths, Harey Morey and Tom Moore. As none of them have ever been shown before in India, Bombay audiences will be given the first opportunity of seeing them at the Globe.

To-day (Saturday) a double Bill including the mythical picture, "Kalia Mardan" will be shown, on account of the holiday, but on Sunday the Bill will revert to its usual hours with "The Blue Fox" and an excellent Snub Pollard comedy.

THE BOMBAY CHRONICLE.
Saturday, July 29, 1922.

VULGARISING THE HOLY LAND.

We have received a copy of the July number of "Zion's Messenger," the official organ of the Bombay Zionist Association. It is called "The Ukraine Relief Number", and, being interested in the Ukraine, and knowing something of the martyrdom the Jews are undergoing in that country, we turned the pages with some eagerness; but, except for an appeal on the back cover, we found not a word about the Ukraine. As is natural, in the case of "Zion's Messenger" we found much, however, about Palestine, a country of more immediate concern to us than the Ukraine; and, though our point of view is not that of the Bombay Zionist Association, we found very little with which we were inclined to disagree. For intellectual Zionism, being idealistic, has spiritually more in common with the progressive movement in Islam than it has with the Imperialistic materialism of Europe, with which unfortunately it has got mixed up politically. Nowhere is the entanglement and confusion of ideas more evident than in the attitude of the movement towards the Rutenburg scheme. This scheme represents the acme of ruthless materialistic exploitation—that ruthless exploitation of Eastern countries which is associated with the name of Europe. It has essentially nothing whatever to do with Judaism, either racial or religious. But because Mr. Rutenburg happens to be a Jew, and because some organs of the "Christian" Press have labelled the scheme "Jewish" and opposed it on no other ground, the whole Zionist community, it seems, must champion the said scheme, without considering whether it will do them good or harm in Palestine. In the July number of "Zion's Messenger," "certain sections of the Indian (!) Press, especially the 'Advocate of India' and the 'Times of India,'" come in for some pretty severe editorial censure for their attitude towards the Rutenburg scheme. No section of the *Indian* Press, so far as we know, has said anything much upon the subject. We ourselves have never referred to it because we thought that noise enough was being made about it, and because we shrink from contact with the anti-Semites. But so far as the scheme for granting a monopoly of all the water power of Palestine, with arbitrary powers to control or divert at pleasure all existing sources of water-supply, is concerned—leaving out altogether the personality of the monopolist—we consider it a sheer iniquity. The powers conferred by law upon a private company in India in connection with the Mulshi Petha Scheme and others have seemed to us sufficiently inhuman, but this is something infinitely worse. And the fact that it is to be applied to a country, which till now has been considered holy ground by Muslim, Jew and Christian, gives it a taste of sacrilege for some of us.

But these, it may be said, are sentimental reasons. Well, there are practical reasons why the scheme ought not to please the Zionists, who, as we are glad to notice in the pages of the "Messenger," express most kindly feelings for the Arab population. The present writer has had intimate personal knowledge of Palestine and of the customs of its peasantry, Muslim and Christian, and he knows that water is there accounted the most valuable of property. He knows that every drop of the surface water of Palestine is owned by somebody. He once bought a house and land adjacent to a copious spring. It was carefully stated by the villagers and mentioned in the deed of transfer that *one-fifth of the water of that spring* went with that house and land, the rest being the freehold property (*mulk*) in common of the villagers. We have known more feuds and fights in Palestine over water than over anything else. It is true that the chief water-*power* of Palestine flows underground at various levels. But the surface springs are connected with that underground supply, and any "control" or "diversion" of it might easily leave the Arab cultivator, who regards the water on his land as his own "freehold property," high and dry.

The thing most to be desired at present, fron the Zionist point of view, is that the strong suspicion of the Arabs that the Jews desire to rob them of their freeholds should be laid to rest. This scheme is nicely calculated to convert suspicion into certainty, and cause more serious trouble than has yet occurred there. Anyhow, the whole proceeding appears singularly tactless, for, if the present Government in Palestine desired the ruthless exploitation of what was once the Christian's, Jew's and Muslim's Holy Land, it would have been better, in the interests of their clients, to go slowly and not initiate a scheme which, even to European capitalists, appears "outrageous," at the very outset, so soon after the "conquest"—and the promise of independence to the Arab population! It is because we believe that the only chance for the Jews to attain anything like a permanent "National Home" in Palestine is by friendly understanding with the Arabs that we consider this scheme detrimental to their interest. The Jews, who wish to settle permanently on the soil of Asia, must be prepared to be what their ancestors were—Asiatics. There is no antagonism of the Arabs against Jews as such. The antagonism is against the Jews as representing European exploitation, and, such a scheme as this, at the beginning of the "Zionist regime," is hardly calculated to diminish that antagonism.

ITALIAN POLITICS

If we are to judge the state of Italian politics to-day by the infallible standard of the Indian bureaucracy, then we may assert without much fear of contradiction that Italy is quite unfitted for self-Government. It follows that Italy is still less eligible for the alliance of such a wonderfully civilized Power as Great Britain. Italy is to-day in a state of anarchy compared with which the late events in Ireland pale into insignificance. The Government of Signor Facta has fallen, and it seems that there is no one among Italian politicians who can successfully attempt to form a Government. Signor Orlando and Signor Bononi have both signally failed and Signor Giolitti, who is recuperating his health at Vichy, feels thankful that he is "outside the parliamentary situation which presents no possibility of a solution responding to the true interests of the country." Party feelings are running high and if we are to believe our European mentors, such deadly hatred exists between the Fascisti, on the one hand, and the Socialists, on the other, that between them they are capable of upsetting the apple-cart of Italian politics at any moment. There are other political parties besides, which make confusion worse confounded. The Catholic Popular Party in the Italian Chamber of Deputies wields in its own way considerable influence and its leader, a Sicilian priest, is regarded by some as the dictator of Italian politics. Signor Nitti, on whom European imperialists rest high hopes, is nowhere in the present struggle. It is all chaos and confusion at present, and our Junker friends who talk unwearyingly of the duty of maintaining law and order, might profitably carry their talents to the more congenial soil of Italy, where Mahatma Gandhi's gentle doctrine is unknown, and make short work of the revolutionaries and all the other advocates of violence.

Notes of the Day

India and Wireless.

From the recent announcement in the House of Commons on the question of wireless service it appears that either the Government of India have changed their attitude or they have been overridden by the British Government. It is some satisfaction to see that it has been decided to adopt direct communication between India and the United Kingdom—a course of action which India has consistently urged, very rightly refusing to be party to any other proposal, especially the absurd and uneconomical scheme of working through Egypt, which was so strongly supported by the British Post Office until the protest from India and the independent action of Australia compelled its abandonment. There is, however, another aspect of the matter which cannot be overlooked. Just as India has pressed for direct communication on grounds of efficiency and economy so, it was expected, the Government of India would insist on carrying out the Indian share of the scheme by means of private indigenous enterprise under contract from Government. Mr. Kellaway's reply seems to indicate that the Government of India have not effectively urged this course of action. The British Government has evidently decided to erect a station for India. Whether India is ultimately to pay for this remains to be seen, but it is very improbable that India will receive a free gift in this respect. Granted that the Imperial Government is about to act the part of a fairy godmother to this extent, it is definitely stated by Mr. Kellaway that India will have to bear the annual cost of the service. Now this is important from the Indian point of view. We do not know what the cost is likely to be, but we do know that the original scheme of two-step communication was to result in an estimated total loss to the Empire of about rupees 15,00,000 per annum for "the opening years." Will not the erection of far more expensive stations be at least equally unremunerative, if these stations are to be run on the lines proposed by the Norman Committee and now amended by the British Government? There is no doubt as to the answer, for, whereas the Norman Scheme provided a single station in India, the proposals, on which the latest scheme is based, require at least one receiving establishment and two transmitting stations at least 60 miles apart from each other if Australian and other Far Eastern traffic is to be handled.

Expensive Scheme.

Government can draw up a contract which would fully insure the maintenance of an adequate service at all times. In fact they can insert practically any terms desired in such a document. The erection of the station by the British Government will entail the importation into India of a large and expensive staff of experts who will be recruited privately in England and, therefore, will be extremely expensive. So much for the erection of the stations. When it comes to operating the stations, a further large staff will have to be recruited in England or trained in India at Government expense. In addition to the operating and engineering staff, which will be considerable, provision will have to be made for a directing staff, which must consist of business-like men, since the whole service is an important commercial proposition and its success or failure as such will depend on the commercial ability of the directing staff. It is well known that not long ago no department of the British Government had even the engineering staff capable of erecting and running stations of the size required, since no department had to use such stations. It is certain that there is no authority in India at present in a position to undertake this work, without considerable assistance from the commercial wireless world in England. It is more certain still that there are no persons in British or Indian Government employ capable of undertaking the business part of the scheme. In other words, the majority of the staff required will have to be recruited from private concerns in the United Kingdom. This will inevitably lead to increase in the establishment charges. In addition, if the service is run by Government it will be part of some Government department, thus adding something on account of the share of the overhead charges of that department. Again, there is the patent question. Before India accepts this decision, we should be assured that all questions of patents are finally settled. Naturally, a service run by Government will have to pay royalties for the use of patents, which again increases the running costs. It is unlikely that the royalties on such service will be nominal, on the contrary they are certain to be very heavy.

Need of Reconsideration.

In fine, Government will be called upon to meet a large annual charge in running a service of which they have no experience. They will undoubtedly have to engage private individuals from the commercial wireless world. On the other hand, Government can obtain the whole service and take a share of the profits by employing a contractor. Profits will be more probably forthcoming if the service is conducted by private enterprise, since the contracting Company will engage persons who are already in its employ and train such personnel as will be required by Government to recruit in India very much more cheaply than can be done by Government. Further, there will be no charge on account of royalties. In fact it is probable that Government will obtain reduction of royalties already paid in respect of other stations. There will be no patent risk and, finally, if the service is proved to be remunerative and Government so wish, it can be taken over at a valuation at such time as the terms of the contract provide. The fears that have been expressed in some quarters that Government will be in the hands of a private company in time of war or emergency are unfounded. The terms of the contract can provide for Government taking over the absolute control and, if necessary, the operation of the whole service. It is, therefore, essential that Indians should carefully consider the effects of the decision of the British Government before accepting it. The horse may be a gift, but it behoves us in this case to examine carefully its mouth.

Tax On The Turf Club.

The Municipal Corporation at its meeting on Thursday passed a resolution asking Government to levy a tax of at least ten per cent. on the sale of tickets for the totalisator and twenty-five per cent. on the sale of entrance tickets and to hand over the realized amount to the Muncipality for the purposes of public utility. The motion was passed without much ado, the only dissentient voice being that of Mr. R. B. Jeejeebhoy, a member of the Turf Club, whose amazing argument that the Turf Club was not making so much money as was represented, naturally did not convince any Corporator. We should, for our part, like to see the Turf Club's enormous income rigorously reduced by legislative ban on gambling of all sorts in and outside the enclosures so as to make horse racing what it was originally intended to be—a noble form of sport. Until the social conscience is so awakened as to compel the adoption of such a measure by Government, it is better that the money that now goes into the coffers of the Turf Club should be taken toll of by the State for public purposes such as the one suggested by the Corporation. While, however, any addition to the Municipal income is to be welcomed, what is much more important and urgent is that the Corporation should bestir itself and prevent the prevailing extravagant expenditure and waste in almost all departments of the Municipality. A retrenchment committee was appointed at Thursday's meeting. We trust it will not go to sleep.

A Record Climb.

The Everest Expedition which roused so much public interest in England and India has failed to reach the summit of the mountain. Some members of the party reached the record height of 27,300 feet above sea level. It was bad weather and early breaking of the monsoon that prevented the party, which consisted of some of the most experienced mountain climbers of Europe, from negotiating the final 1,700 feet. The Expedition overcame tremendous difficulties all throughout the thrilling journey and the last disaster, which signalised the ascent and which cost the lives of seven hillmen, was caused by the rushing down of an immense volume of avalanche, sweeping the whole party down for a distance of about one hundred and fifty feet. Every one will deeply regret the death of the seven hill-men who lost their lives in a great cause. To their fortitude and pluck unstinted tributes should be paid. Col. Strutt sometime back in an interview to a Calcutta contemporary described these hillmen as "better than the best Alpine professional porters any of us had ever met with." The failure to reach the summit will not certainly deter the hardy mountaineers from trying again and again until some one of them succeeds in setting his feet on the highest spot on earth. Man has conquered nature in many directions. Still, after centuries of scientific progress, the highest peak of the world defiantly looks down upon him and his poor achievements.

Some Questions.

Commenting on Lord Lytton's recent speech, the "Patrika" writes:—

"Lord Lytton had been connected with Mr. Montagu long enough as Under-Secretary of State for India to know the inwardness of the Reforms and so when he speaks of their potentialities he does so with an authority and conviction which, we are sure, will receive due weight. But what the people of Bengal and, for the matter of that, the 'peoples' of India are asking to-day is:—'If the Reforms are as they are represented to be, why should staunch Moderates like Sir Sivaswami Ayer, Mr. Seshagiri and Mr. Jamnadas Dwarkadas have such gloomy forebodings as to the future? Why should Dr. Sapru suddenly discover that the climate of Simla was not agreeing with his constitution? Why should the Indian member in charge of Law and Order in Madras yield to the threat of resignation of a District Magistrate in the matter of the release of a political lady prisoner? Why should Sir Abdur Rahim hasten up to Simla? Last but not least, why should there be such a disproportionate division of the revenue for 'Law and Order' and 'nation-building departments?'"

"EGYPT" ENQUIRY.

SECOND ENGINEER'S EVIDENCE.

A PATHETIC STORY.

(REUTER'S TELEGRAM).

LONDON, July 27.

At the resumption of the "Egypt" enquiry, Mr. Halliday concluded his evidence. He said that after the collison he did not see his serang who was a native headman attached to each officer and responsible for transmitting orders to Indians.

Mr. White, Second Engineer, said that following on the orders to stop the engines there was a slight shock. The stokers crowded out of the stokehold into the engine-room. He ordered the natives back. The Indians told him water was pouring rapidly through the centre bulkhead. The natives re-entered the engineeroom. Witness told them to clear out and they went above. Eventually, water poured into the engineer-room rising to the height of a foot. Witness closed the water-tight door and set the pumps working. The ship was listing violently, and he was expecting her to turn-over any minute. He rang up the bridge, but was not answered. He then quitted the engine-room and searched for life jackets which he distributed. He helped with the boats, and ordered many natives out of them ordering them to help with the other boats. Witness helped in the launching of the boat full of people but the boat never swung free, and she went down with the ship. Witness was caught by a davit and forced down. He swirled round under water in suction, and was shot up through the ship's alley-way to the surface. He found a floating oar and hung on to it for two hours before he was rescued.

Replying to Mr. Cotter, Mr. White said one water-tight door in the stokehold would never close. Some natives refused duty, but two natives remained on the deck, and went down with the ship. Witness injured his chest, and was taken to the hospital in Brest.

LATER.

On the conclusion of the evidence of the ship's officers before the Court of Enquiry into the circumstances of the "Egypt" disaster, the Solicitor-General read out affidavits made by passengers, the President of the Court overruling the objection to such an action.

Mr. William George, electrical supervisor, at the Gibraltar Dockyard, said that in view of the fog, all life-boats should have been swung out prior to the collision. His statement averted that there was much panic amongst the native crew, but only one case of panic amongst the passengers. No lives would have been lost if the "Egypt" had carried a white crew. Mr. George was of the opinion that one officer behaved heroically.

The Solicitor-General remarked that this was evidently the third officer, Mr. Halliday.

PATHETIC STORY.

Pathetic was the affidavit of Mr. Anthony Bado, a second-class passenger and resident of Bootle, who was proceeding to take up a post at Gibraltar, with his wife and two children, both girls, aged, respectively, five years and four months, who were all lost. Mr. Bado said that the natives were seized with panic. Passengers, officers and the white crew, however, remained calm.

Bado's affidavit went on to say his little girl repeatedly called to the Lascars for help. They took not the slightest notice. His family mounted the boat deck and an English steward gave his wife a life-jacket. A passing Lascar tried to tear it from her back. Several passengers saw the incident. Bado had a little girl in his arms and all he could do was to kick that Lascar. From what he saw the Lascars did nothing but look after themselves. Many natives were injured on the heads between the ship and the boats in their scramble. Others jumped overboard. The Loscars appeared to disobey all orders. He (Mr. Bado), his wife and children went down with the liner and he never saw his wife and the girls again. Bado was picked up and taken aboard the Saine. "The Lascars could have saved the lives of my little children because the sea was calm and at least twenty-five minutes elapsed between the collision and the sinking of the ship. The only children aboard were my two daughters and no effort was made to save them" (Reads part of the affidavit).

Mr. Bado mentioned that when he landed he found a Lascar wearing his coat. Feeling in the pockets he discovered all bank-notes contained in the case had been stolen. Only a picture of his wife was left. As a result of the disaster he lost everything of value in the world.

A LADY'S EVIDENCE

Mrs. Hansen, wife of the engineer of a Danish Salvage steamer stationed at Gibraltar, corroborated the evidence of the attempt of a Lascar to steal Mrs. Bado's life-jacket. She referred to the heroism of a nun, Sister Rhoda, who did much to calm and inspire the passengers. At times she held the hand of witness. She also did much to comfort Mr. Bado's children. Sister Rhoda was praying when the ship turned turtle. Witness went down, but clung to wreckage and was eventually rescued.

The enquiry was adjourned.

A. I. C. C.

POSTPONED TO 15TH SEPTEMBER.

(ASSOCIATED PRESS.)

MADRAS, July 27.

The Secretary of the Congress Civil Disobedience Committee states that the President regrets to inform the members of the All-India Congress Committee that in spite of every effort the Committee appointed to enquire into the general situation and make report will not be able to complete the taking of evidence before 12th of August. Some further time is necessary to analyse and consider the same and to prepare a report which will have to be printed and circulated to the members. The circumstances were explained to the members already by a letter and suggestions for adjournment have been received. It is impossible to finish the work above outlined and give sufficient time to the members to consider the report before assembling, unless the meeting is postponed to the middle of September. Such adjournment will also enable the Committee to have help and guidance of Mr. C. R. Das who will be shortly released. The President, therefore, adjourns the meeting of the All-India Congress Committee originally fixed for 15th August to 15th September at Calcutta.

AIR FORCE.

DEBATE IN LORDS.

(REUTER'S TELEGRAM.)

LONDON, July 28.

In the debate in the Lords on Air force, Lord Montagu of Beaulieu said that on the northwest frontier of India aeroplanes on the whole had produced a very important effect, if not as important as at one time was hoped. Lord Gorell on behalf of Government said British air squadrons were distributed as follows:—Home 12½ squadrons, Mediterranean 1½, Egypt and Palestine 4½, Irak 8, India 6. The estimated cost of the air force, including India, for 1922/23 was £15,177,000 sterling. If twenty squadrons were added to Home, the cost would be £17,227,000 sterling. Lord Gorell quoted a passage from the forthcoming report on Civil Aviation saying it must be recognised that all the Red route from England to India could not yet be mapped out but, said Lord Gorell, he anticipated that this would soon be nearly if not entirely achieved by the machine able to make a trip, comprising Paris, Marseilles, Malta, 1,130 miles in one flight. As regards the policy of substituting air force for other forces, said Lord Gorell, progress had not been bad but "we must be careful not to go too fast." Government intended to use the air force where it was more efficient for the same expense or equally efficient for less expense.

ANTI-INDIAN PROPAGANDA IN ENGL.

A MANY-SIDED DANGER.

IMPORTANCE OF EDUCATING FOREIGN OPINION.

(By B. G. HORNIMAN).

LONDON, July 13.

The need for organised Indian propaganda in this country grows more apparent as time goes on. The recent *volte face* performed by the British Labour Conference in its attitude towards the Government of India Act is an instance of the injury to the Indian cause, that ensues as a result of the failure to carry on organised propaganda in foreign countries. The principle of self-dependence is one with which nobody quarrels and the abandonment of the attitude of humble appeal to the British Parliament, which was maintained in the days of the old Moderate regime in the Congress was certainly right and proper. But to go to the other extreme of ignoring British and other foreign opinion altogether is a self-stultification, which seems to me impossible to justify on any grounds whatever.

At one time India's justifiable complaint was that Indian questions were ignored in the British Parliament and press. To-day that is not the case. India is ignored when it is convenient but there is a steady insidious campaign of untruth and misrepresentation kept up in most of the papers, the intensity of which rises and falls according to the needs of the moment. In addition to this there are constant underground intrigues and machinations in progress to prevent any possibility of the realisation of the truth about India reaching the public. Whatever methods the Indian people have adopted, or may adopt in the future, in the process of attaining their freedom, they cannot afford to allow their case to go by default in the opinion of the world. That is a lesson taught by all past history, and especially contemporary history, of such struggles. While you have, on the one hand, intense ignorance of the real merits of the Indian questions due to the entire absence of any educative propaganda from the Indian side, you have, on the other hand, the steady and continuous stream of misrepresentation poured into the ears of the public by the anti-Indian Press and the persistent concealment of facts for which they are responsible. I have just been reading a characteristic example of this in the "Daily Telegraph," which vies with the "Times" in the business of "pulling the wool over the eyes" of the British people, when there is anything going on in India which is not desirable, in their view, that the people in this country should see with a clear vision.

An Example of Misrepresentation.

The tour of the Civil Disobedience Committee is naturally enough causing no little perturbation to those who have been trying to create the impression that Non-cooperation is "down and out." The "Telegraph" publishes a cable from its Allahabad correspondent, which commences with the statement that "the Committee is not meeting with the success which the promoters expected," and it bases this statement on what it describes as the "comments of the vernacular Press." It then proceeds to quote the comments of two papers—the "Aligarh Gazette" and "Paisa Akbar"—and concludes with the assertion, based on these comments, that "there is reason to believe that firm action by the Government against the apostles of revolution would meet with the approval of a large proportion of sober Indian opinion which is getting weary of the Non-cooperators' efforts to stir up strife." In such ways are the public in this country asked to encourage repression in India in order to satisfy the demands of "sober Indian opinion."

That is an example of the subtle forms of misrepresentation in which the Press indulges. The acceptance of the resolution approving of the Government of India Act at the recent Labour Conference is an example of the effects of leaving the public in a state of ignorance of the real state of Indian feeling. Such a lamentable success of those who are out to mislead Labour could not have occurred, had there been in England some sort of organisation for keeping the public properly acquainted with the true facts. It seems to me a question which Indian leaders require to consider very carefully,—whether it is really wise to leave a free field to the enemies of the Indian cause who leave no stone unturned in their determination to mislead foreign opinion.

Save us from our Friends!

It is not only the enemies of India from whom there is danger. There are the well-meaning friends—among whom I would count such men as Colonel Wedgwood—who persist in nursing the delusion that, if Non-cooperators find that they are getting no encouragement from political parties in this country, they will turn to the working of the reforms and wait patiently and humbly until such time as they have won the confidence of the British Parliament, which will then graciously grant them an extension of freedom. Another example is Mr. Sydney Webb, who had just been elected Chairman of the Labour Party Executive. Mr. Webb has no misgivings in the matter of ignoring the principle of self-determination in its application to the "subject races of the Empire" and strongly advocates the "progressive realisation" theory. He does not believe in racial equality and recently frankly told an audience of Indian students so. These are the men who now prevail in the Councils of the Labour party, and it is due to their deleterious influence that Labour has gone so badly astray on the question of India. Propaganda is as much necessary to fight their influence and counter their mischievous and misleading activities, as it is in the case of the declared enemies of Indian freedom—

DEPORTATION OF HARRY THUKU.

NO OPPORTUNITY GIVEN TO MEET CHARGES.

INTERESTING CORRESPONDENCE.

(By C. F. ANDREWS.)

The following correspondence has been received from East Africa concerning the deportation of Harry Thuku, the African Secretary of the East African Association, on the ground that he was endangering the public welfare. At the time of his deportation the crowd who had collected were fired on and many were killed and wounded. It will be seen that there has been no opportunity whatever given to Harry Thuku to meet the charges made against him and to refute them. Mr. Desai to whom Harry Thuku writes is the Honorary Secretary of the Indian Association, Nairobi, East Africa.

Kisamayu, 28th March, 1922.

Dear Mr. M. A. Desai,

I am sorry to inform you that I have been sent there in Kismayu. I left Nairobi on the 19th instant and arrived here on 24th instant. When I arrived here I was set free but not to go out of the town and had also to report in person to Police Office every morning. I came with Waiganjo wa *Ndotono* but he was left at Lamu.

The trouble I got here is about food because I am getting 25 cents (four annas) per day which is not sufficient at all even for my tea. Another trouble is for heat and I know no one here so I am feeling lonely. I have been known by some of Indians here especially by Messrs. Allibhai Abdulalli. I use to go to visit them every time in their shop.

The first thing I wish to know is what became to my Association since I left, another thing have they been making an effort to try to get me out again?

Is Indian Association and "E. A. Chronicle" especially you Mr. Desai trying to help us through my people? I believe you are doing so. The "E. A. Chronicle" paper of the 18th instant reached here the same day I arrived and it was read in my presence because it was in Gujrati. I was very glad to hear how they wrote about my arrest, at the same time I hereby request you to convey my thanks to the Editor.

On Sunday last I was told by Senior Commissioner here that there is no particular information available affecting myself at present but if anything available he will let me know. But I wonder why Government arrested me and sent me here as there was no trouble amongst natives or between natives and Government.

The last thing I wish you to do for me is to tell my Association not to make any trouble with the Government but they might ask Government the charge they got against me. Will you Mr. Desai ask your Office Boy, Munyua, to go and call Abdulla Tairara at my house, Pangani (Village) and you or Mr. Puri will explain him all about this letter and also tell him to look after my mother and my things like his own, and do please ask him to explain you everything happened after me and you might write me and let me know.

Please ask "E. A. Chronicle" to send me their papers of the 18th and 25th instant respectively to be sent through Messrs. Allibhai, Abdulalli, Kismayu and I will get it alright. Ask Messrs. Varma, Samsuddin and Mangaldas to try their best to help me to get out from this place. The above firm tells me that they are well-known by Mr. Yusufali and also they know you very well.—

I hope to hear from you soon,

Sallaam to all people especially Mr. Puri,

Yours, sincerely,

(Sd.) HARRY THUKU.

April 11, 1922.

Dear Mr. Thuku,

I am in receipt of your letter of the 28th ultimo for which I thank you.

I am very sorry to hear about your arrest and I believe that all justice loving people felt likewise. Instead of deporting you the Government ought to have put you on trial so that you would have got an opportunity to defend yourself. You are deported under the Native Political Offender's Ordinance of 1909 (Removal of). It appears that you have been deported under the following section of the aforesaid Ordinance. "Where it is shown by evidence on oath to the satisfaction of the Governor, that any native is conducting himself so as to be dangerous to peace and good order in any part of the Colony."

According to the Ordinance you could only be released at the pleasure of the Governor. No Court can interfere and there is no appeal to any Court but I think you can appeal to the Right Hon'ble the Secretary of State for the Colonies.

I forward by to-day's mail four copies of Weekly Edition of the E. A. Standard and if you were to read them through you will know all that has happenned since your arrest and deportation.

The Chief Native Commissioner issued an official statement after your arrest which has been published in the "E. A. Standard" of the 25th March on page 8 and marked by me in red ink, a perusal of which will show you what the Government has got to say against you.

Let me tell you that the resolutions passed by your countrymen under the auspices of your Association and under your Chairmanship were perfectly constitutional and I am sure that those who know you, know perfectly well that you are always for constitutional agitation to get redress of the grievances of your almost dumb countrymen and that you are loyal to His Majesty the King and that you are quite innocent, but it is very difficult to prove unless you are put on your trial.

I shall be glad to learn (1) how many meetings did you address in the reserve and at what places, since you left the Government service, (2) the substance of what you and other speakers, if any, said at these meetings and the purport of the contents of the handbills distributed by you among your countrymen and printed for you by the "E. A. Chronicle" works if you cannot send me actual translations thereof.

From what I hear, your East African Association is no more in existence.

As regards your release, I suggest you make a petition to the Governor, stating under what circumstances you left Government service and all that you have done to bring to light the grievances of your countrymen to the notice of authorities here and in London since then and also pointing out your loyalty to the King and your innocence of the charge made against you by people unknown to you and if the Governor is satisfied, I have no doubt, he would order your release, failing which you can, if you like, make a further representation to the Rt. Hon. the Secretary of State for the Colonies in London. If you will let me have all the facts about your case and other information I ask for, I will draft a petition for you to be presented to the Governor and when ready will forward if for your approval and signature.

You will be sorry to hear that your friend Mr. Abdullah was along with others tried as a member of the unlawful assembly gathered round about the Police Lines, found guilty and sentenced to one year's rigorous imprisonment.

I have spoken to Mr. Moyah to speak to your mother that if she wants say help she may see me and I will do all I can for her.

With kind regards,

Yours sincerely,

(Sd.) M. A. DESAI.

MR. THUKU ON THE "CHARGES" AGAINST HIM.

Kismayu, 2nd May, 1922.

Dear Mr. Desai,

I thank you very much for your kind letter of the 11th ultimo in reply to mine of 28th March.

I was very glad for all that you informed me especially that you have spoken to Mr. Moyah to speak to my mother to come to you whenever she wants help and that you will do all you can for her.

I was very sorry to learn of the grave action taken by Government among my countrymen on 16th March (the day of shooting). Also for a long sentence of my best friend Mr. Abdullah Tairara. I hope to send a special message to Mrs. Abdullah Tairara expressing my regret for such sentence.

I thank you awfully for those copies of the Weekly Edition you sent, from which I have learn all that has happened since my arrest and deportation. I wish I were at Nairobi to give replies to those unworthy Europeans accusing Indians through their Presses in Native name. I am quite sure that natives do not need to be told by the Indians that they are not masters in their houses, as they have learnt this from Europeans who are treating them very badly, especially by the way of compulsory labour among native women and children on their plantations.

With reference to the information you asked me, I am so glad to let you have it. The meetings were held as follows in the Native Reserve under my Chairmanship:—

Thika, Fort Hall District 2 meetings (attended over 4,000).

Wethaga, Fort Hall District 1 meeting attended over 25,000.

Kigwaya's Fort Hall District 1 meeting attended over 20,000.

Wangindu, Nyeri Hall District 1 meeting attended over 13,000.

Ng'enda, Kyambu Hall District 1 meeting attended over 7,000.

The substance of mine and other speakers was to seek better conditions, to get real education for our children, to protest against ill-treatment amongst us by Whites, and to improve our country generally.

The purport of the contents of the handbill distributed by me among my countrymen, I could not give you the exact translations thereof, but I can assure you that I did not say anything against His Majesty's Government at all as to disobedience of their orders. I was up against some of the Missionary bodies, who were preaching in their churches that I was spoiling the Kikuyu country instead of preaching the gospel of Jesus Christ which is their duty to do. Also I was against four Native Christians, then Chiefs and Government headmen, namely, Chief Philipo Karanja James, Chief Koinange wa Mbio, Headman Josiah Njonjo and Waruhiyu wa Kung'u (all are of Kyambu Administration). These four Government servants are office-bearers of the Kikuyu, and it will be rather funny to everybody to learn that Government servants are taking part in private association and Chief Native Commissioner doesn't take any notice of that. These four Kikuyu gentlemen followed the Missionaries' lines by going round the Native Reserve and preaching that I was spoiling the Kikuyu country; but mind you that they are best friends of European settlers and were forcing Native girls and women to go to work on European plantations before establishment of East African Association. But the poor fellows do not remember the contents of their memorandum of grievances submitted by the Kukuyu association to the Chief Native Commissioner and Senior Commissioner at Degoretti on 24th June, 1921.

The real reason which caused me to resign the Government service was to enable me to bring to light the grievances of my countrymen to the notice of authorities here and in London because I knew that I could not do that while I was in the Government service.

According to the section of the ordinance which empowered the Governor to deport Natives from any part of the Colony, I do not see anything applied to my case because I was not "dangerous to peace and good order." I was not "endeavouring to excite enmity between the people of the Colony and His Majesty." I was not intriguing against His Majesty's power and authority in the Colony. I was always sober, obedient and peaceful.

I have read through the Chief Native Commissioner's explanation to my countrymen, but I doubt natives will agree to that explanation because they have learnt now how the Government loved natives on 16th March. Instead of leaving natives alone to bear more children to pay back those have been killed in late European war, the Government killed the natives for nothing. A very good lesson has been taught to the natives how they will enjoy British Empire in their Motherland.

If I were a white man I should have sound grounds by all means. And if Government will let Colony be ruled over by Convention of Associations I have no doubt Kenya Colony will not rest for ever, and many natives will be killed and deported from their countries to other countries as convention of associations is very anxious to have more shambas (i.e., farms) out of Native Reserve.

As my representative I hereby request you to draft a petition to present to the Governor and please forward it to me for my approval and signature. I wish to point out to H. E. the Governor that the trouble was caused by those native chiefs who have been allowed to take part in the private associations and taking leading place as President, Vice-President and Secretary and no native other than chief have voice in the association. And if this will not be carefully considered by Government I am sure the trouble will not cease in the Colony.

I must worry you now and then, Mr. Desai, by asking you to send me some books and newspapers to read, because I feel lonely and nowhere I can get some books to study.

I was very sorry to learn that the "E. A. Chronicle" have been closed, but I hope they will re-open again.

With best regards,

Yours sincerely,

(Sd.) HARRY THUKU.

NAIROBI, May 7th, 1922.

Dear Mr. Thuku,

I was very pleased to receive your letter. Your delay in reply had made me very anxious about your health. Your friend, Mr. Abdullah, had appealed against his conviction by Mr. Doorly, the Magistrate, who tried certain of your countrymen as rioters. The Appeal Court reduced the sentence to a fine of Florins 100, or six weeks' rigorous imprisonment. As five weeks and a few days had already elapsed, he decided to serve the few remaining days of the term. He was released on the 2nd day of May last and is once again a free man. I have no doubt that the news will be most pleasing to you.

Mrs. Abdullah, her mother, your mother and Mr. Abdullah came to me on Monday last, the 5th instant. I gave them all information about you. I showed them a copy of your photograph with Prince Sunna of Uganda and they were very much pleased to see it.

I told your mother that Abdullah and myself were to be regarded as just like her own son Harry (you) and she can come to any one or both of us for news about you or for anything she wants and she was very pleased to hear that. I also told her that I will do my best to get you released at the earliest possible date. I gave her Florins 6 to meet her present requirements. She did not want more just now. She said perhaps she might require some help to pay Hut Tax and if so she would come when she wants it.

Probably I will send you the desired petition by the next mail. It is quite probable that Abdullah might come to see you in a fortnight's time.

Mr. Tadwalker is now in London and I have sent him copies of the correspondence between you and me, and Mr. Dracott and H. E. the Governor, with a request to do whatever he can for your release. Hoping you are enjoying good health and wishing your early release,

Yours sincerely,

A MEMORIAL TO THE GOVERNOR.

NAIROBI, 4th May, 1922.

May it please your Excellency,

Under instructions from my client, George Mugekenji—half-brother of Harry Thuku—given prior to his arrest at Kyambu I have the honour to approach your Excellency in connection with the arrest and removal of (1) Harry Thuku and (2) George Mugekenji.

At the outset I would beg to state that I have undertaken this work on very definite understanding that all I would do for my clients had to be done on absolutely constitutional grounds and with a view to, if possible, get the Government of your Excellency to show some clemency to my clients. The Ordinance No. 18 of 1969, under which my clients are deported, very clearly lays down that your Excellency has absolute power in the matter of the removal of natives, but before this power can be exercised it enacts that there shall be sufficient evidence on oath to satisfy Your Excellency of the genuineness of the charge.

As far as I am instructed neither of my clients have the slightest notion what the evidence against them amounts to or by whom it was given and what manner.

Evidence on oath according to the Indian Evidence Act, which is in force in this country, means statement of witnesses made on oath in their examination-in-chief and also includes statements made by them in cross-examination and re-examination. It is not evidence unless and until it is subjected to cross-examination by the party accused or his advocate and furthermore it cannot be acted until it has been so subjected. I have referred to this important matter of cross-examination of evidence because I am of opinion that the provisions of the Ordinance that a native can be removed (deported) on evidence on oath which satisfies the Governor of the Colony, can scarcely have been said to have been carried out when such evidence taken on oath had not been subjected to the acid test of cross-examination. I presume of course that there was no such cross-examination and do so from the almost dramatic circumstances which attended George Mugekenji's arrest the particulars of which I, above all people, am best able to furnish. One afternoon George Mugekenji asked me to get out to Kyambu to interview Mr. Hope who was finally settling the question of a chief for the Gotheremu community. I had been engaged for this matter some weeks previous. I accordingly took George in my car and drove out to Kyambu. On the way I thought I recognised Mr. Hope going into Nairobi. I nevertheless went on. On arrival at Kyambu I sent George up to the District Commissioner's Office to see if Mr. Hope had actually left. As George did not return for some time I made enquiries and found he had been arrested. I immediately went on and saw Mr. Campbell, the District Commissioner, who confirmed the fact of George's arrest on a warrant signed by Your Excellency which was shown me—Mr. Campbell could however give me no details.

Now George had been in my office for several days and was evidently absolutely unconcerned about any action the Government was taking against him, which to my mind clearly goes to show a certain amount of innocence. In any case he was not aware of any evidence having been recorded against him, and I think I am safe in saying he certainly was given no opportunity to cross-examine the evidence prior to his arrest nor does it appear to me that Thuku was given the chance to do so.

I have referred to the matter of evidence given on oath not being subjected to cross-examination because I feel that the value of such evidence is particularly little or nothing or in any case has not that sufficiency of value which would enable Your Excellency to act in accordance with the provisions of the Ordinance. Entirely relying on such evidence, as has been done in my client's cases, constitutes a very great danger to the public, particularly to the native who after all, being thoroughly ignorant, should be given much greater latitude and opportunity of defending himself specially as Your Excellency's orders under this Ordinance are final and without any appeal. I would in conclusion ask Your Excellency to be so good as to order me to be furnished with a copy of the evidence recorded against (1) Harry Thuku and (2) George Mugekenji and that I be informed what if any cross-examination the evidence was subjected to before Your Excellency signed the warrants. I may add that I shall treat the evidence, if furnished, as strictly confidential, but shall use it to enable me to get at the bottom of things before preparing a memorial which I intend submitting Your Excellency and through Your Excellency to the Right Honourable the Secretary of State for Colonies on behalf of my clients.

I have the honour to be,

Your Excellency,

Your Excellency's most humble and obedient servant,

DACOITIES IN SIND.

(Associated Press.)

HYDERABAD, (Sind) July 26.

Reports from all parts of Sind show great increase in the number of dacoities. The most serious and daring of these is reported from village Kabdan in Taluk Badin where about 50 armed dacoits mounted on horses surrounded the village in broad daylight and took possession of the village where only one constable had been retained as a result of the recent retrenchment. The constable was captured and no one was allowed to leave the village although it was only two miles distant from Badin. The dacoits stayed in the village for three to four hours when they made house to house loot and carried away cash and jewellery worth over one lakh of rupees besides many maunds of grains and some horses. Dacoits are reported to belong to Kutch. The District Magistrate and the Police Superintendent have proceeded to the village.

BURGLARY AT BANGALORE

BRITISH SOLDIERS INVOLVED.

(Associated Press.)

BANGALORE, July 26.

The case of midnight burglary and theft of costly millinery having been repotred in the local branch of Whiteaway Laidlaw Company's premises in South Parade, inspectors Smith and Norenha of the Cantonment Police conducted investigations, as a result of which five artillerymen Gunners Bryan, Walker, Downs and Drivers Little and Allison of 145th Battery R. F. A. were arrested and placed before Mr. T. Apstin, Cantonment District Magistrate, this afternoon, who remanded them to police custody. It is stated that stolen property worth several hundreds of rupees has been recovered from the accused.

A wire from Najibad in Bijnor District says that several dacoities have occurred there recently, and private houses in two villages have been looted by a party of dacoits numbering about one hundred possessing firearms.

S. S. "Linga" left for Bombay with general cargo.

ANTI-INDIAN PROPAGANDA IN ENGLAND.

(Continued from previous page.)

indeed more so. Then, again, there are our Moderate friends who visit England and do much harm in the same way, and by keeping up the old delusion, so flattering to the soul of the British public, that India has not lost confidence in the British sense of justice and waits on British generosity for the ultimate attainment of her aspirations. They leave the average Britisher with the idea that everything is going on quite comfortably, on the whole, and there is nothing the matter but a little impatience on the part of India, which need not be unduly encouraged, especially since these eminent Indians themselves are so assured of Britain's desire to do justice and their determination to preserve their confidence in India whatever happens. Can the average Britisher be blamed, if, what with the deceptions of the Press, on the one side, and the comforting assurances of prominent Indians, who rejoice in the appellation of "Moderate," on the other, he comes to the conclusion that things had better be left alone?

The Danger of Flattery.

It would not be possible to find a more pernicious example of the danger of mixing flattery with propaganda than is offered by the fate of the little book which has just been published by Khwaja Kemal-ud-Din, the Maulvie of the Woking Mosque. Mr. Kemal-ud-Din has written an excellent book—up to a point. He presents on the whole a very good review of the situation in India,—the strength of the Non-co-operation movement, the danger of ignoring it, the change that has come over the attitude of the Indian people towards Great Britain and the British connection,—and he presents the Moslem case, in moderate language, none the less, forcefully. The reader, coming to this little work without prejudice, could not fail to appreciate how grossly the Mussalmans have been betrayed or how gravely the mind of the whole of India has been affected by this and the failure to do justice in the matter of the Punjab atrocities. But he goes out of his way to pay a tribute to the sound heart of Great Britain and to introduce quite irrelevantly, in such a connection, the friendly feelings entertained by himself towards the British people on account of his association with them in this country; though these feelings undergo a change when he goes back to India. He is a sort of Jekyll and Hyde, in fact hating the English when he is in India and loving them when he is in England

The effect on the "Times,"

That is very interesting no doubt, but it is unfortunate that the Maulvie's psychological eccentricities should be offered to the reader as an excuse for believing that the blame for his hatred, when he is in India, should be laid on his own eccentricity, rather than on the evils for which the British people, whom he loves when in England, are responsible. What is the result? The "Times," in giving prominence to a review of the book, ignores the tremendous indictment against British rule which the greater part of it constitutes and fastens on all the nice things he has to say about the British character and British justice, etc. Triumphantly producing his "final and unqualified judgment," that "Britain is all honesty and good faith and has done and is doing her best," it lauds him as "no irreconcileable" like such "fiery spirits as the Ali brothers," commends itself on the "live and let live" spirit which enables a Mahomedan divine to take up his residence in England to rally the faithful and also to proselytise, and leaves the British reader with the comfortable impression that confidence in British honesty and good faith being so great, there is nothing left to worry about. Britain can be left to go on doing her best, as she is and has been doing. And since the Maulvie's unfavourable impressions gathered in India can be put down to "the effect of atmosphere, especially with non-cooperation rife in India" it is evidently safer to accept his flattering belief in British honesty and good faith, formed in England, than his indictment of the evils of British rule, formed in the atmosphere of Non-cooperation in India. While that is the sort of pabulum on which British people are being fed from Indian sources it is obviously impossible to hope that whatever happens in India, Great Britain will be awakened out of her apathy.

"The Hind."

It is regrettable to record, in the midst of so many discouraging circumstances the apparent demise of one more of the few publications which have hitherto existed as check to the hostile propaganda, which daily gains in volume. The "Muslim Standard" which was doing really useful work for a long time in letting in light on the darkness that prevails in regard to the cause of Islam, and particularly the question of the Khilafat and the grievances of Indian Moslems, has ceased to appear for many weeks past and signs of its revival are not to be found. The Khilafat and the Indian cause are now left with no organ in this country but the humble, though brave and commendable, effort of Mr. G. S. Dara, the weekly paper "Hind." It is due to Mr. Dara to recognise the self-sacrificing pertinacity and energy with which he has kept his paper going in the face of many difficulties and discouragements. That it is doing good work in the limited sphere that is afforded it, I am convinced. With a little support, in the way of subscribers from India and a larger support from Indians in this country it would adequately fill the gap and perform a most valuable mission. The apathy of the Indian community in England is deplorable. Had it not been, indeed, for Mr. Dara's energy in the organisation of conferences and the production of "Hind" we should have heard nothing of the voice of India in this country during the past year. There are plenty of people in this country who welcome the existence of some source from which they can glean reliable information as to Indian views, and the facts of the situation, such as the paper which Mr. Dara publishes provides, but, of course, such an enterprise cannot depend for its success on purely English support, nor is it right that it should. It should be able to rely on Indian support to ensure its existence with freedom from financial anxiety on the part of its conductors and to make it the full and valuable expression that such an organ of Indian opinion ought to be. There is some talk of the early appearance of an organ of Moderate Indian opinion in this country and I am told that ample funds have been provided for its support. It would be deplorable if, in the face of such a prospect, the one paper in existence which is doing something for the enlightenment of people here, were not to receive adequate support. I trust that those who can afford to do so will not hesitate to send their subscriptions or donations, as the case may be to the Manager of "Hind", the office of which is at 31/33 High Holborn, London, W. C. 1.

ALLEGED ASSAULT ON UNDER TRIAL PRISONER,

CASE AGAINST AN INSPECTOR OF POLICE,

(Associated Press.)

CALCUTTA, July 27.

Mr. Keays, the Second Presidency Magistrate to-day took up the case in which Inspector Provat Nath Mukherjee of the Calcutta Police is charged with assaulting an under-trial prisoner Surat Chunder Dhar in Jorabagan lock-up on 7th March. Sub-Inspector Ahmed in charge of Jorabagan Police Station deposed that on receipt of a report that the under-trial prisoner Dhar had been assaulted by Inspector Provat, he took the statements of Dhar and several police officers and sent those statements to the Assistant Commissioner of Police. He also produced Dhar before the Assistant Commissioner and then sent him to the hospital. The accused Inspector also made an exculpatory statement before the Assistant Commissioner.

Sub-Inspector Mondol stated that he examined Dhar on 8th March and found marks of injuries on him. Sub-Inspector Banerjee attached to Jorabagan Thana deposed that when he admitted Dhar on the 7th March there was no injury on his body but on the morning of the 8th idem he heard that there were injuries on his person. The accused Inspector came to Thana in the afternoon of the 7th and brought out Dhar from the lock-up without taking permission of the witness. The accused abused and assaulted Dhar. The case is proceeding.

ASSASSINATION OF A TIBETAN MERCHANT,

(Associated Press.)

KALIMPONG, July 27.

A report has been received here that Mr. Kusha Pangdachang, a prominent merchant of Tibet, has been assassinated. He in company with some other merchants was playing at cards in a Tibetan tent in a part outside Chasa when someone stealthily came outside and shot him from behind. Tibetan tents are mostly semi-transparent. The merchant was at one time a great favourite of the Dalai Lama especially during the life time of Mr. Longchen Shetra who was the Prime Minister of the Dalai Lama during his exile in India in 1912 and succeeding years. He held a monopoly for the export of Tibetan wool for a number of years. The motive of the crime is reported to be personal enmity.

Limbdi State in Kathiawad has prohibited the import or possession of any kind of country liquor within its territories and has announced that it will pay one-fourth of the fine thus realised to those who help in the detection and conviction of such culprit.—(A. P.)

INDIAN AND PENINSULAR. S. N. CO. LTD.

SHAREHOLDERS, BEWARE,

To the Editor of "The Chronicle."

Sir,—The Annual Report of this steamship Company is just placed into my hands; and its perusal has been most painful. Here are some facts and figures, which speak for themselves:—

(1) The paid-up capital of the Company is Rs. 4,68,275; and the net loss during the year is Rs. 5,51,927!

(2) The Book-value of the steamer is Rs. 1,20,000, and the repairs on that single steamer during that single year is Rs. two lakhs!

(3) The gross freight earned by the steamer is Rs. 1,95,429; and the working expenses thereof are Rs. 4,06,973!

(4) The steamer is kept under mortgage; where as the Company's monies are lying in Banks on fixed deposits, and invested in shares!

(5) Expenses unpaid come to Rs. 2,87,186; and those under dispute Rs. 5,35,347!

(6) Besides this, there is a contingent liability of rupees five lakhs!

(7) Since September, 1920, that single steamer is still under repairs!

(8) The Report admits, that the vessel is 32 years old! And that she has been undergoing heavy repairs at a great cost!

(9) Please note, that the Directors have been repairing and old steamer, worth Rs. 1,20,000, for nearly two years and that at a great cost! Why, please? For whose benefit were repairs kept on? For whose benefit was the staff kept on? What was the justification for repairing an old ship for two years? Why is the Report for 1921, not yet published?

(10) Who is responsible for large sums spent on repairs to one ship, on full staff, on, Managing Director's Remuneration, etc.

(11) Please further, note, that the Chairman of the Board has not signed the Report! And (12) That the Auditors have made a separate Report, which must be very interesting!

If shareholders desire to safeguard their interests, the best course for them is not to adopt the Report; to stop all repairs to the ship; to insist on having the accounts made upto 30th June, 1922; and appoint their own committee to protect their interests, and demand full explanations from the Directors—Yours, etc.

C. P. RETRENCHMENT COMMITTEE.

EVIDENCE OF OFFICIAL WITNESSES

(Associated Press.)

NAGPUR, July 27.

The C. P. Retrenchment Committee met at the Government Secretariat, Nagpur on July 24th under the presidency of Mr. F. S. A. Slowcock, Evidence of police officers was taken. Mr. Morony, Inspector-General of Police, Central Province, said that it was desirable to stop recruiting for Imperial Service until the position became clearer. The pay offered to police should not be less than 3/4th to 4/5th of the pay offered to the Civil Service. He considered that the present pay of the provincial police service was in no way unnecessarily liberal. He saw no scope for reduction of duty and other allowances. He could not agree that there should be reduction in the number of Range Deputy Inspector-Generals. He would be prepared to dispense with the post of one assistant C. I. D. He regarded the circle inspectors as most useful officers and any proposal to reduce their number would be incompatible with efficiency. He considered the Government of India should pay the cost of the railway police administration. Messrs. Latham and Chitham, officers of the Police Department, also gave evidence on the above lines.

TIME TO RAISE SCHOOL FEES.

The Committee examined the Director of Public Instruction on July 25th. Mr. Jones D. P. I. in his evidence stated he was in favour of discontinuing further recruitment to Indian Educational Service. There should be no recruitment of Europeans to a service controlled not by the province but by the Secretary of State. He was against the abolition of the Training College at Jubbulpore. He upheld the duty allowance to Senior Deputy Inspectors. He considered that the educational service was subjected to active incessant hostility. He considered that separate Mahomedan schools did not justify their existence from the educational point of view but he thought their abolition would be extremely unpopular with the Mahomedans. He felt that the time to raise school fees had come. He would not reduce the number or value of scholarships. Some other officers of the Educational Department also gave evidence. The Committee will hold its sittings till August 18th when more heads of departments and non-officials will be examined.

(From a Correspondent.)

MANDALAY, July 24.

MALAVIYAJI AT MUTTRA.

ADVICE TO POLICE AND SEPOYS.

"DISOBEY ILLEGAL ORDERS."

On the 9th July, Pandit Malaviyaji made a speech at Muttra a summary of which is given here below:—Brothers and sisters,—My enthusiasm has increased seeing you coming in such large numbers to hear me. This big gathering is indeed a manifestation of the enthusiasm of the nation. Day by day, you are progressing and you have been discharging your duties faithfully. You are doing your best. People say that all enthusiasm is dead in India, but to me this appears to be quite false. Wherever I go I see the enthusiasm of the people increasing day by day. If you see any body's enthusiasm is on the wane, you must understand that he is ignorant of the true condition of our country, or there is no fire of patriotism in his breast.

STRONG AS EVER.

In our present condition, when 25,000 brothers of ours have gone to jail, who is that patriotic Indian who cannot feel enthusiastic and eager to relieve the mother and of her distress? If there are any people who do not feel any enthusiasm, inspite of this, I can only say that they are as good as dead. This present rule has subjected us to innumerable miseries. Were we ever cowed down and got cofused? (Cries of 'No no'). All the difficulties that we had to encounter have fallen over us like showers of flowers—they are so much a source of strength to us. We want men who are prepared to suffer all the difficulties with a cool head and a strong heart. People say that there is not much noise now and that the non-co-operators are doing nothing. But I say that everything will be tested when time comes. Each action has its own proper season. When the hour of trial came, we filled the jails, we faced the shots, we did every thing. When there is no need and there is no opportunity what should we do? Should we simply dash our heads against stones and say we are doing a grand thing? This is not the time to go to jail. And even by going there we cannot achieve much. If anybody says that we are afraid of going to jail, I can challenge him and show more than a thousand people in this very audience who are prepared to go to jail, this very moment if an order comes from the Congress. (The cries of "We are all ready, we are all ready." I see that this is no time for mere display. There are two sorts of fighters. To one sort give a bottle of brandy in his hand and ask him to fight. He will fight u[illegible] cation with all the frenzy [illegible] mand. He forget[illegible]

[illegible] every one. You [illegible] to [illegible]aken people to the sense [illegible]ce of [illegible]od in them. Do that work, go to every town, village and hamlet, preach to them the Gospel of Gandhiji, and awaken the God in them to a sense of their duty and the service of the motherland. Are you resolved to do this work, visit every house and knock at each heart. (Cries of "Yes, Yes, we will do")

If you are a Government servant, do your duty conscientously. Understand that the Government is intended to serve the people and you also are the servants of the people. You, policemen, to you also my advice is this. Do not obey any orders of the Government which go against Law and Religion. Tell the Government straight that you are not obeying it. Service of the people is tantamount to Service of God.

Policemen, I request you to listen to my words. If you find anybody really guilty, have no mercy on him, get him punished. Unless and until you plant your feet on the sound basis of Dharma, there is no use of hoping for Swaraj, Swaraj cannot come like that. All of you unite together. There can be no unity of the just and the unjust. There can be no union between fire and water. Union can only be among equals. Therefore, all of you become equals. My brothers, my countrymen, see with your eyes open and get ashamed of yourselves. Tears of blood rush to my eyes when I see my country as it is, and my countrymen looking towards Heaven in despair.

Whatever you can learn from Englishmen, learn from them. Whatever you can do, do it with all your might and earnestness. When once you have stepped onward never look back, go on, proceed further and take your countrymen also with you. Instruct your countrymen that no salvation can come to our motherland by hanging on favours.

REMOVAL OF UNTOUCHABILITY.

Raise your "untouchable" brothers. I do not mean that you should interdine and intermarry with them. If he comes quite clean and neat, having bathed and worshipped God, and attends a meeting, do not spurn at him, allow him to sit with you and treat him like a human being. My word to you is, educate him and teach him religion. Those "untouchable" brothers, who worship the same gods as you do, who bathe in the sacred waters of the Ganges and Jumna and cry with great devotion "Ganga Mayiki jai" and "Jamna Mayi ki jai" and listen with devouring attention to the stories of the Ramayana and the Mahabharat—these do you treat inhumanly? He also its a Hindu like any one of you. Is he not closely related to you? Is he further to you than the Christian who comes from a distant land? Do we not touch Mussalmans? The same illuminating God who is in you and me and in every life on this earth, shines with glowing splendour in the heart of your "untouchable" brother. You ask about intermarriage, you ask a Pandit to marry an "untouchable" daughter. I can assure you that my untouchable brother will not consent to that. He will give his daughter only to his caste man and not to others. I am prepared to do my all to lift my "untouchable" brother. Is there any Hindu who hesitates to call an "untouchable" his brother?—"The Servant."

FINANCE.

Conditions in the money market continue easy and money flows to an increasing extent into the new Government Loan. The short deposit rate is about 3 to 3½ per cent, while the call money rate is about 2½ per cent. The Imperial Bank balance is up by Rs. 359 Lacs and the Bank-rate remains unchanged at 4 per cent. The cash balance of the Imperial Bank this year exceeds the figures of the corresponding period of the last year by about Rs. 4½ crores which indicates a slackness of trade demand and the ease of monetary conditions, while, on the other hand, the fact that the Government balance is more by about Rs. 12 crores means that the market is short by about Rs. 8 crores. The amount of Treasury Bills outstanding on the 15th of July was about Rs. 45.87 crores, which shows little variation from the corresponding figures of last year, about 45.88 crores. The maturities for bonds due in 1921 were for a larger amount than for bonds due 1922, but applications, in the previous year for the loan, in 1921 came in later and the total loan subscribed for was about Rs. 65 crores. This year the subscriptions to the Indian Government Loan have now reached Rs. 25 crores and it is confidently expected that they will total Rs. 30 crores at least before the loan closes.

Exchange conditions remained dull during the early part of the week, but later, the rates gave way by a 1/23 d. to 1s. 3 19/32d., and at the close a big amount of exchange was bought for bullion imports. The American cross rate dropped to $. 4.44¼ but closed steady at $. 4.45. Had it not been for the disturbed political situation in Europe, which was mainly responsible for this decline, the import of coal and the surplus gold in the London market would have tended to make the rates steadier. There was no change of any importance in the Continental exchanges on London, with the exception that German marks have depreciated to 2320. At the lower level, there were export bills showing both in Bombay and Calcutta and the under tone of the market is healthy.

A fairly large [illegible]ddle business was transacted in shares at the average rate of 15 per cent interest per annum.

In the miscellaneous section, quiet conditions still prevail and the amount of business put through was on a small scale. Trams kept fairly steady around Rs. 125, there appearing now little likelihood of any development of the threatened strike. Tata steel deferreds declined to Rs. 215 on selling by weak holders. Imperial Banks kept steady round Rs. 1,365 and the Contributories at about Rs. 345. Railway shares continue steady.

At the adjourned meeting of the Stock Exchange, a compromise was effected between bulls and bears as a result of which budlee business in Nagpur and Swadeshi mill shares is now allowed, although trading in these shares for September delivery will be permitted from the 14th of August. It is gratifying to be able to report the arrangement of differences by an amicable settlement reflecting the good sense of both parties.

Market closed steady.

WAGING WAR AGAINST KING.

CASE AGAINST MR. M. P. NARAYAN MENON.

(From our Correspondent.)

CALICUT, July 27.

The hearing of the case of waging war against King and sedition against Mr. M. P. Narayana Menon, vakil was resumed yesterday by the special judge. There is also another case of waging war against King pending against the accused. According to the Public Prosecutor's exhibit accused went to Pandiccad towards the end of July or beginning of August 1921 and in conjunction with Thatiyan Mideen Kutv Musaliar since sentenced to death for waging war, addrssed a big audience at a mosque and incited them to rise in arms against the British Government.

At Thuvoor a few days before the rebellion broke out accused in cooperation and concert with Ayinikkal Koya Musaliar Kazi of the local mosque and a prominent rebel leader since sentenced to death by court martial for waging war, addressed a monster meeting of Moplahs at which he amongst other things said as follows:—The British Government who have done grievous wrong to the Khilafat cause is nearing its end. The Moplahs should establish a Khilafat Government for which every one should sacrifice his life. They should get hold of necessary arms and organize themselves by enlisting volunteers and assembling at mosque with all their arms on beating of war drum.

Again about the middle of August 1921, accused went to Karuvarikundu with Variamkunnath Moideen Hajee and other rebel leaders since sentenced to death for waging war and in conspiracy with them organized a meeting at which he incited people to reble and to establish Khilafat Rule.

By doing the acts aforesaid accused committed offences punishable under Section 121 I.P.C.

EVIDENCE OF A POLICE INSPECTOR.

Mr. K. P. Raman Menon then commenced cross examination of the prosecution witnesses. Mr. M. Narayana Menon Inspector of Police stated among other things that he knew accused for the last fifteen years and that accused became a Non-Co-operator in 1920. There was a prohibitory order of District Magistrate prohibiting public meetings in Ernad. Meetings were prohibited only during Raman month in May 1922. Information of the projected meetings used to be given to the Divisional Magistrate and prohibitory orders used to be issued. He did not know if there was any order prohibiting accused from holding or addressing public meetins in Ernad. There was no order prohibiting public or private meetings in mosques. He did not regard the occasion on which accused spoke as public meeting. He did not report to his superior officers that it was dangerous to allow accused to speak at or hold private conferences. He drew a distinction between the Khilafat movement in Malabar and outside Malabar. The Khilafat movement outside Malabar was not accompanied by violence. The object of the Khilafat movement outside Malabar was to get some Muslim grievance redressed, but in Malabar as he had understood the object was to subvert the British Government and establish a Khilafat Government. He had not attended any meetings at which volunteers were enlisted or subscriptions collected. Het was not present at any place where arrangements were made to assemble Moplahs in mosques by beat of war drums. He had been obstructed by an armed mob in investigating a gun theft case at Pookottur. Accused was with Mr. K. Madhaven Nayer on 22nd August. Accused never told witness that he should have defended Manjeri and died at his post. Accused never told that witness was a coward. If accused had said so he would have kicked accused and taken it as a gross insult to him. He did not ask Mr. Madhavan Nayer to meet the Pookottur gang and to warr off their attack. Accused had been to his house on 29th August. It was not true that accused was in his house that night. Witness reported for arrest of accused under the Moplah Act. What struck him was that offences against accused were clearly under the Moplah Act and as he charged accused first under that Act.

Re-examined by the Public Prosecutor the witness stated that to his knowledge accused went to his house as a spy to find out the place where arms had been concealed by him. It was the next morning that the Government treasury at Manjeri was looted by Kunhamed Hajees gang.

ANOTHER POLICE INSPECTOR CROSS-EXAMINED.

Cross examined by Mr. Raman Menon, Rao Sahib A. C. Govindan Nambiar, Inspector of Police, Walluvarad stated that a Khilafat flag had been put up on the Khilafat office at Tirurangadi. He did not know if a false rumour had been circulated to the effect that that flag had been taken down and trembled upon by the Reserve Police who visited Tirurangadi in the month of June. Reserve Police did not remove the flag. He has seen accused staying with Ali Musaliar when he went to see accused in connection with his information that accused was at Tirurangadi to establish a Khilafat kingdom and to try to overthrow British Government. Accused told him that it was time for the Moplahs to fight for their Khilafat cause. He knew that accused was inciting the Moplahs to rebellion and he reported against accused. Violence had been advocated at all the meetings between February and August and he had reported purports of all the speeches.

Hearing will be resumed to-day.

Another party of Afghan students passed through Peshawar a few days ago on their way to Europe and signs of the changed international conditions are manifest in the greatly increased coming and going of Afghan merchants and officials and members on embassy and other foreigners. (A.P.).

The Hitkarni National High School Committee, Jubbulpore, has decided to open a first year college class provided that at least ten applications for admission are received at the office of the school before 5th August. The course of the Behar Vidyapeeth will be adopted.

A·HAPPY·BABY·MAKES·A·HAPPY·MOTHER
Mrs. R. says: "My boy was brought up on Glaxo, and is a fine healthy child. Apart from breast-milk, I am sure it is the only perfect food."

Baby's peaceful sleep

Peaceful sleep at the right time is as necessary to Baby as the right kind and quantity of food. If he does not sleep, or is restless in sleep, he is unwell, and a frequent cause of Baby's ill-health is indigestion.

A suitable form of milk is the only food for a baby up to nine months, and GLAXO is milk in its most nourishing and most digestible form.

Glaxo has only to be mixed with hot, boiled water to provide instantly the required quantity of pure, fresh, unadulterated milk—milk made specially digestible and safe for Baby by the Glaxo Process.

"TREATMENT OF POLITICAL PRISONERS."

MESSAGE WITHHELD BY GOVT.

The Secretary, Central Khilafat Committee, Bombay, writes under date July 26:—

The following press-message wired to the "Daily Herald", London, by Seth Chotani Saheb, President, Central Khilafat Committee, Bombay, has been withheld as objectionable, by the Telegraph authorities under orders from the Government of Bombay (Home Department).

Almost all Karachi trial prisoners, namely, Maulana Shaukat Ali, Nisar Ahmad, Pir Ghulam Mujaddid are being refused interviews on some pretext or other. For instance, Maulana Mahammad Ali is permitted interview only in English; hence the aged mother of the Ali Brothers, Mrs. Muhammad Ali and her daughters, not knowing English, have been denied interview. This means as long as Maulana Muhammad Ali remains incarcerated at Bijapur Jail and some English Jailors remain custodians no interview can be had. The lot of political prisoners in Bombay Presidency Jails is highly distressing, vexatious and horrible.

Ordinary Jail bread contains one-fourth of sand or dust, which is difficult to digest or swallow, being not fit for human consumption.

All political prisoners, not under medical treatment are receiving such diet. No difference is being made between ordinary criminal and political prisoners, regading diet, clothing, enforcement of ordinary humiliating rules and general treatment. Mahatma Gandhi is also not treated with any greater consideration.

CIVIL DISOBEDIENCE ENQUIRY COMMITTEE AT GADAG.

(FROM A CORRESPONDENT.)

GADAG, July 26.

The Civil Disobedience Enquiry Committee consisting of Hakim Ajamalkhan and party arrived here from Bijapur en route for Madras on 24th July at 8-25 a.m.. A grand reception was given them at the railway station and they were taken into the town, a large crowd of people following. A public lecture was arranged and after Sjt Gangadharrao Deshpande had introduced all the leaders to the audience Hakimji exhorted the audience to forget mutual differences for the sacred cause of the Punjab, the khilafat and Swarajya. Sjt V. J. Patel impressed on the minds of the people the immediate necessity of winning Swarajya. Sjt C. Rajagopalachari in his saintly tone explained the imporaance and necessity of the spinning wheel, khaddar and removal of untouchability. After a short impressive speech by Sjt Sharwani the meeting terminated. The audience however, felt very much the unavoidable absence of Dr. Ansari, who was unable to attend the meeting owing to illness. The people of this province seemed rather disappointed that Pundit Motial Nehru was not amidst them for inevitable reasons.

The party after dinner paid a short visit to the congress office where hand-spun yarn of different counts spun by amatures, untouchable sisters and national school students were arranged to be exhibited. Hakimji and Rajagopalachari took with them some beautiful and fine yarn as a souvenir of the visit. The party left Gadag for Madras at 10-45 a.m.

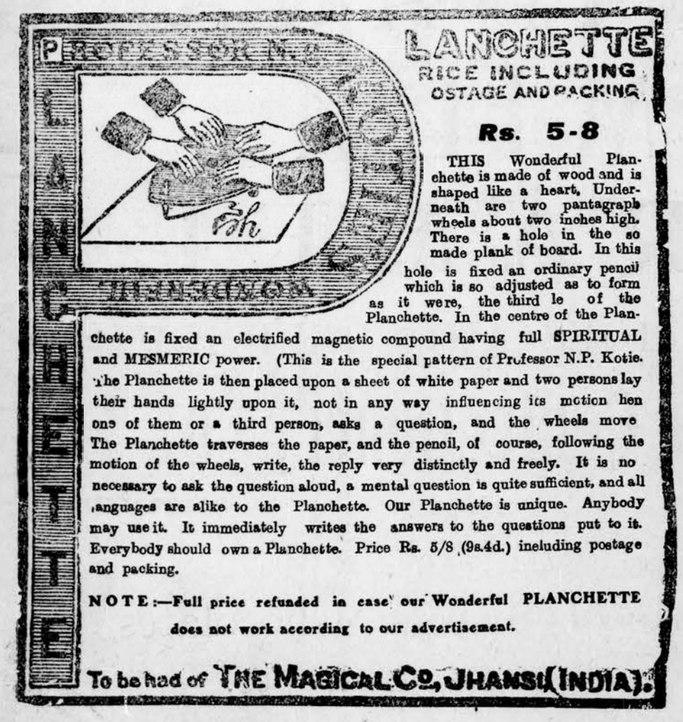
Miracle of Spiritualism

SUCCESS AND ENTIRE SATISFACTION GUARANTEED



LANCHETTE
PRICE INCLUDING POSTAGE AND PACKING.

Rs. 5-8

THIS Wonderful Planchette is made of wood and is shaped like a heart, Underneath are two pantagraph wheels about two inches high. There is a hole in the so made plank of board. In this hole is fixed an ordinary pencil which is so adjusted as to form as it were, the third le of the Planchette. In the centre of the Planchette is fixed an electrified magnetic compound having full SPIRITUAL and MESMERIC power. (This is the special pattern of Professor N.P. Kotie. The Planchette is then placed upon a sheet of white paper and two persons lay their hands lightly upon it, not in any way influencing its motion hen one of them or a third person, asks a question, and the wheels move The Planchette traverses the paper, and the pencil, of course, following the motion of the wheels, write, the reply very distinctly and freely. It is no necessary to ask the question aloud, a mental question is quite sufficient, and all languages are alike to the Planchette. Our Planchette is unique. Anybody may use it. It immediately writes the answers to the questions put to it. Everybody should own a Planchette. Price Rs. 5/8 (9s.4d.) including postage and packing.

NOTE:—Full price refunded in case our Wonderful PLANCHETTE does not work according to our advertisement.

Questions regarding the Past, the Present, and the Future may be put and answers obtained in any language. Anybody may send for this Planchette from the Magical Co., Jhansi, and see the wonders."
